

CHEMICAL DISPENSING METHOD FOR A HARD SURFACE CLEANER

ABSTRACT OF THE DISCLOSURE

In a method for use in a hard floor surface
5 cleaner, a supply of cleaning agent and a flow
control device are provided. The flow control device
is coupled to the supply of cleaning agent. Next, a
flow of cleaning agent is provided that travels from
the supply of cleaning agent through the flow control
10 device. Finally, the flow of cleaning agent is
restricted to less than approximately 10.0 cubic
centimeters per minute using the flow control device.
